Contact

Sebastian Rudolph sebastian.rudolph@tu-dresden.de, room 2035,
scheduled individually ...or at the Open House

Organization

hands-on exercise means

- *autonomous work* on the practice sheet in small teams of 3-4 students, under supervision
- *no general repetition* of lecture material
- *no demonstration* of the sample solution (will be provided later)

necessary for that is

- making notes during the lecture
- performing autonomous follow-up course work *before* the exercise
- bringing material and your notes to the exercise
- developing own activity

Organization

Why this exercise concept?

- active development of the lecture material is more effective
- discovering relationships in the material
- learning structured thinking and autonomous working
- learning team work
- learning to explain things
- exercise for the exams ;-)
- *You have finished your study of . . . Your personal strengths include pro-activity and team work, you are communicative and willing to cooperate. (typical job advertisement)*

2 Overview

Overview

Organization

I Contexts, Concepts, and Concept Lattices

- 1 Concept Lattices
- 2 Multi-valued Contexts and Conceptual Scales

II Closure Systems and Implications

- 3 Closure Systems
- 4 Implications

III Knowledge Discovery

- 5 Attribute Exploration
- 6 Rule Exploration
- 7 Attribute Exploration with Background Knowledge

IV Extensions of FCA

- 8 Triadic Formal Concept Analysis
